Founder Meeting.

Nature of Work Forum
October 25-26, Garden Museum, London

Created by
Digital Workplace Group

Join the Founder Meeting of the Nature of Work Forum.

On October 25-26, you will be part of a new, confidential Nature of Work community. We will work together in person at the iconic Garden Museum in London – designing and participating in a new story of work for a living age.

Meeting highlights.

Two days of networking, engaging with and learning from and with **leading organizations and change makers**.

A chance to learn and explore new ideas and language about leadership, the workplace and new agendas for change.

Opportunities, space and connections to **think through key topics in the world of work**, such as sustainability, return to office, diversity, wellbeing, innovation and people.

Be a part of designing this new, invitation-only community from the start, giving input to **what this newly-formed network needs** to thrive, grow and influence the shape of our work futures.

Who will be attending?

The Nature of Work Forum is attracting a diversity of senior leaders and change makers in mostly large corporates and public institutions drawn from a range of areas.

Attendees will be mostly senior executives responsible for:

- **Sustainability**
- **Diversity, Equity and Inclusion**
- **Talent**
- **HR**
- **Transformation**
- **Hybrid working**
- **Future of work**
- **Communications.**

The Nature of Work (NOW) Forum is based on the book **‘Nature of Work The New Story of Work for a Living Age’** published and written by Paul Miller (Digital Workplace Group CEO and Founder) and Shimrit Janes (DWG Director of Knowledge).

Your organization (and the world of work) are alive. For centuries we have behaved as though organizations were machines, treating people as parts of those machines. But your organization is a living, dynamic system. Join this innovative, dynamic group as a Nature of Work (NOW) Forum. Can't wait to see you there!
